

Evolve your flight scheduling system to be more integrated, enabled, connected and optimized than ever before.

Operator

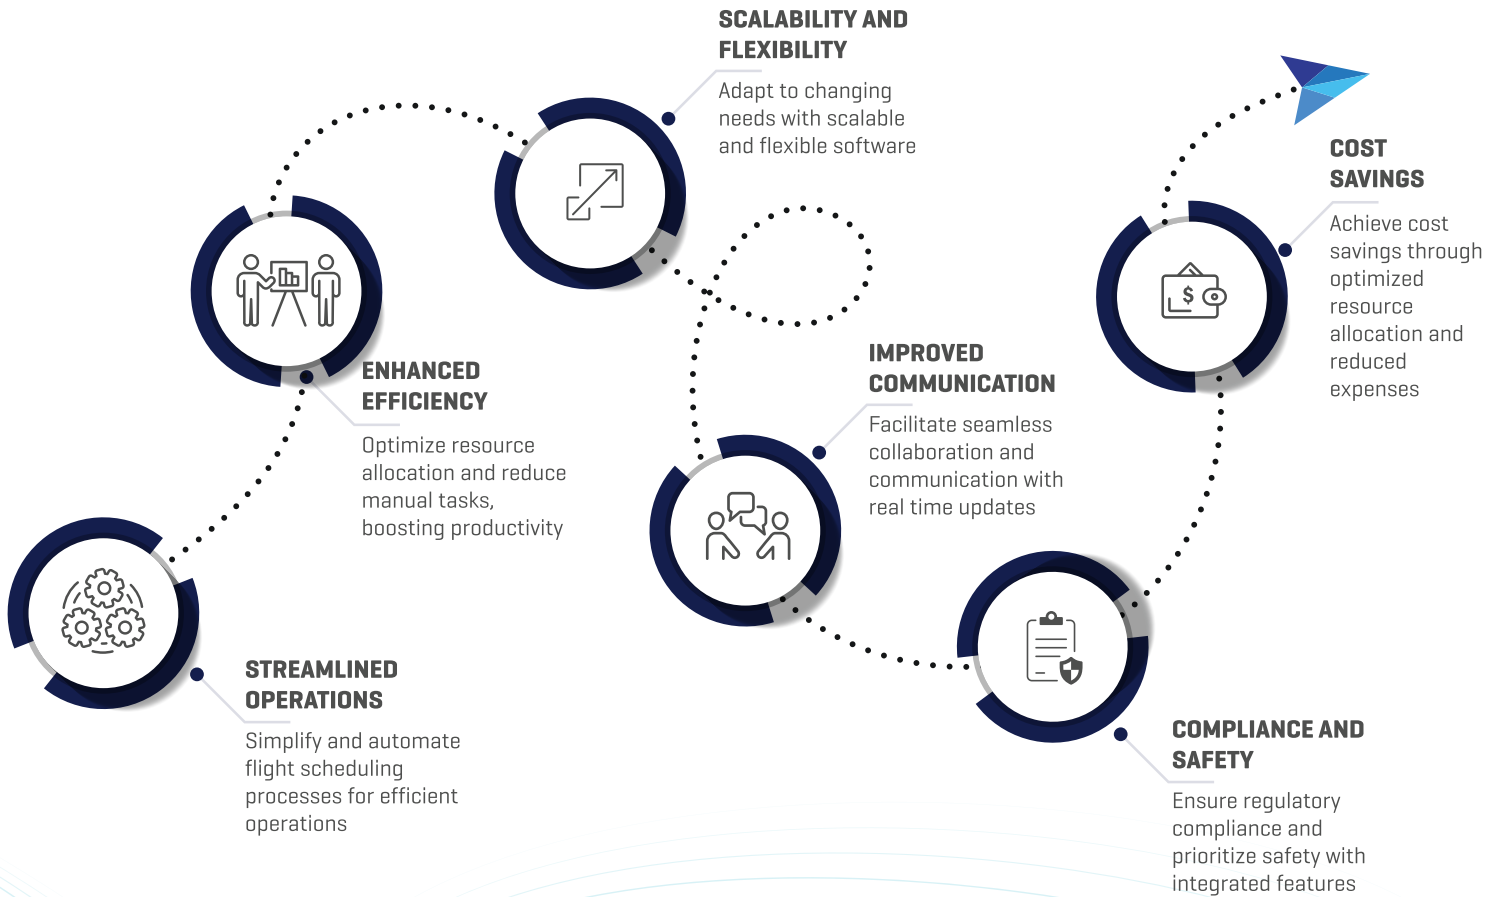

Operator is a comprehensive solution that consolidates your operational and flight support systems into one seamless solution that meets the unique requirements of your operation. With our customer-oriented platform, robust trip feasibility checks, and seamless communication between departments, streamline your operations and improve efficiency.

Discover the power of Operator, the ultimate flight operations solution that will transform your business. Designed to focus on efficiency and ease-of-use, Operator optimizes every aspect of your operations, from aircraft and crew scheduling to flight planning, weather monitoring, and maintenance tracking.

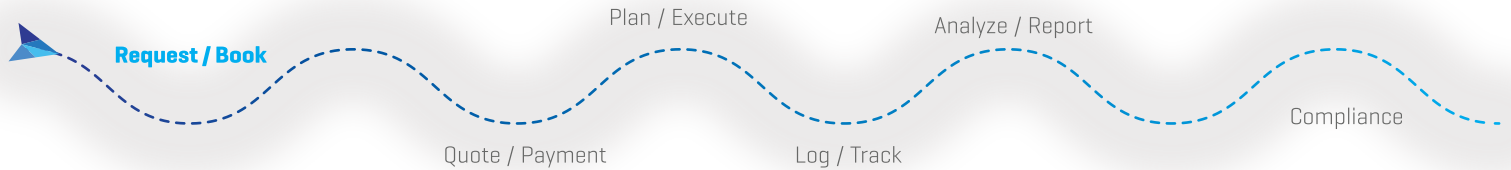

Operator

# REQUEST / BOOK

Operator

## Features

- ✓ Time and Distance Calculation
- ✓ Airport Search
- ✓ NOTAM Management Tool
- ✓ Travel Management
  - ✓ Seat
  - ✓ Catering
  - ✓ Transportation
- ✓ Resource Management
  - ✓ Aircraft [runway analysis, performance data]
  - ✓ Crew & Licenses
  - ✓ Airport & Service Providers
- ✓ Approval & Authorization
- ✓ Communication and message activity tracking

## Key Benefits

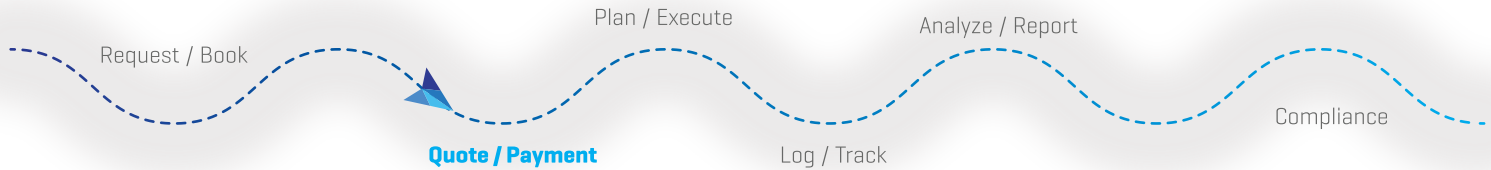

- ✓ Accurate information in the foreground
- ✓ Real-time availability tracking
- ✓ Access the current airport/vendor database
- ✓ Coordinate customer requests on time
- ✓ Eliminating the need for back-and-forth emails or phone calls
- ✓ Increase customer engagement and satisfaction
- ✓ Allocate the available and qualified resources based on customer requests
- ✓ Accurate estimation of flight duration and fuel consumption
- ✓ Personalize service delivery with historical data

# QUOTE / PAYMENT

Operator

## Features

- ✓ Itinerary creation
- ✓ Contract-based Pricing
- ✓ Aircraft-based Pricing
- ✓ Automated Rates/Fares Calculation
- ✓ Automated Fees/Taxes Calculation
- ✓ Multi Currency Quotes
- ✓ Customer Management
- ✓ Approval & Authorization
- ✓ Integration with Avinode

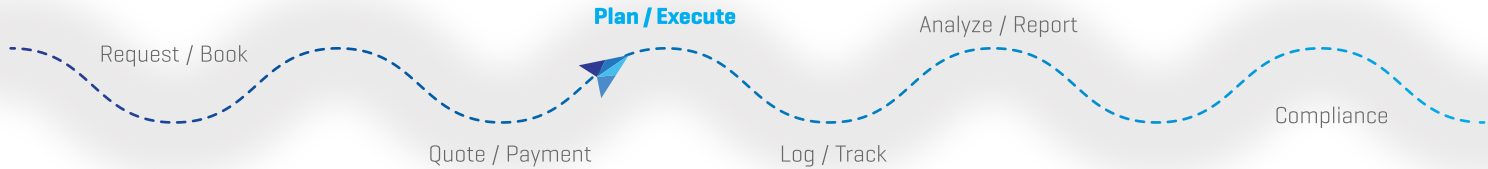

## Key Benefits

- ✓ Easy access and visibility of schedule for the sales team
- ✓ Comprehensive fee schedules to meet quoting requirements
- ✓ Ability to create and customize professional quote templates
- ✓ Flexibility to plan multi-leg trips
- ✓ Improved collaboration between sales, operations, and customer service teams
- ✓ Elimination of manual calculations, reducing errors, and saving time
- ✓ Automatically reflecting pre-determined prices saves time and ensures accurate pricing integration

# PLAN / EXECUTE

The background of the slide features a person with curly hair wearing a headset, viewed from the side, working at a computer. The entire scene is overlaid with a blue tint. In the bottom right corner, there is a white, wavy graphic element. A curved arrow points from this white area towards the person's head.

Operator

## Features

- ✓ Trip & Leg Management
  - ✓ Itinerary Check
  - ✓ Services & Logistics
- ✓ Support of Multiple Country & Authority Rule Sets
- ✓ Management of Operational Dependencies
  - ✓ Flight Plan
  - ✓ Fuel Planning
  - ✓ Airworthiness
  - ✓ Weight & Balance
- ✓ Configurable Crew & Fleet Legality Checks
  - ✓ Rule Enforcement
  - ✓ Flight & Duty
  - ✓ Currency & Training
- ✓ Briefing and Release
- ✓ Travel Management

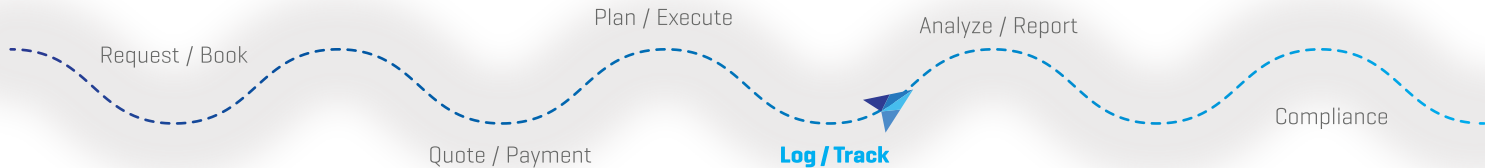

## Key Benefits

- ✓ Execution of complex itineraries with multiple legs and stops
- ✓ Reduce costly errors in advance with automated legality checks
- ✓ Track the limitation of duty time and flight time
- ✓ Qualification and recency tracking for crew
- ✓ Adherence to different sets of rules and regulations based on operating countries
- ✓ Execute trip planning and support functions from 3rd party vendors
- ✓ Automatically creates checklists for each trip
- ✓ Manage various operational dependencies in one platform
- ✓ Compliance with aircraft maintenance requirements and regulatory standards
- ✓ Timely reminders for routine inspections
- ✓ Quick response, proactive decision-making with an alert mechanism
- ✓ Enforce complex business rules consistently and accurately with +100 rule sets

# LOG / TRACK

Operator

## Features

- ✓ Irregularity Reporting
- ✓ Logbook Entry
- ✓ Connection with Crew Briefing App
- ✓ Airport/ Vendor direct messaging
- ✓ APIS submissions in appropriate formats
- ✓ Maintenance Tracking
- ✓ Crew Duty Compliance
- ✓ Crew Management

## Key Benefits

- ✓ Capture key operational timing to analyze flight performance
- ✓ Enhanced coordination and dissemination of crucial flight information
- ✓ Ensure a seamless travel experience for crew members
- ✓ Minimize aircraft downtime and maximize operational availability
- ✓ Simplify keeping flight-related data and assist with regulatory compliance
- ✓ Efficient management of aircraft maintenance schedules and tasks with integration
- ✓ Insights for optimizing operational efficiency and on-time performance
- ✓ Access and analyze a wide range of flight data in real-time

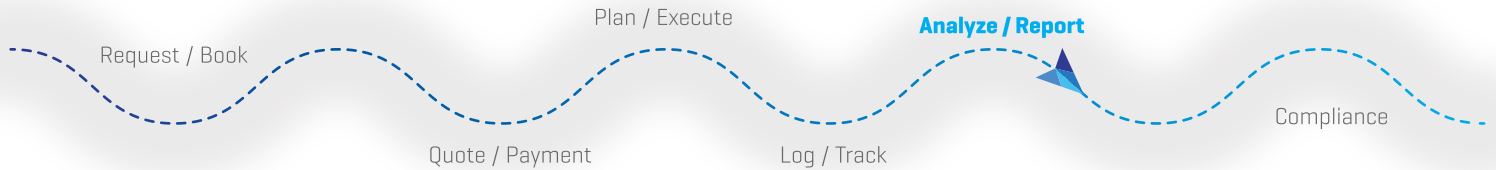

A person is shown from the side, wearing glasses and a dark shirt, holding a pen over a tablet. The tablet displays a line graph with a circular inset showing a pie chart. In the background, a laptop screen also displays data, and a white coffee cup sits on the desk. The entire scene is overlaid with a blue tint and decorative white wavy lines. The text 'ANALYZE / REPORT' is prominently displayed in white, bold, sans-serif font on the left side.

# ANALYZE / REPORT

A curved arrow points from the right towards the left, ending near the word 'Operator'.

Operator

## Features

- ✓ Pilot Service Report
  - ✓ Crew Currency
  - ✓ Pilot Duty Time
  - ✓ Crew Landing Experience
  - ✓ Crew Roaster
- ✓ Operation Report
  - ✓ Daily Aircraft Activity
  - ✓ Aircraft Delay Report
  - ✓ CO2 Emission
  - ✓ FBO-based Report
  - ✓ Fuel Billing Status
  - ✓ Maintenance Status
- ✓ Sales Report
  - ✓ Booked Quotes & Trips

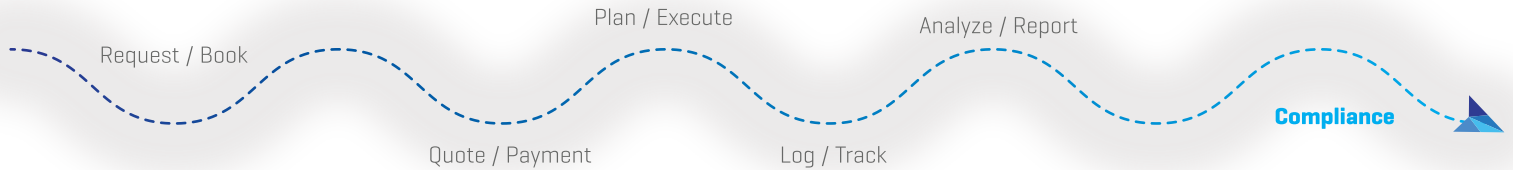

## Key Benefits

- ✓ Extensive API Library with market leaders for personalized analysis
- ✓ Pre-designed Reporting
- ✓ Evaluate pre-built sales metrics for enhanced business strategy
- ✓ Improve data accuracy with the populated data in the system
- ✓ Make data-driven decisions easily with pre-designed reports
- ✓ Advanced reporting with real-time data integration

# COMPLIANCE

Operator

## Features

- ✓ Regulatory support
- ✓ Flight & Duty Limitations
- ✓ Integrated Training Management
- ✓ Fatigue [Crew Duty Compliance]
- ✓ Safety Management System
- ✓ Irregularity Reporting
- ✓ FOQA & MOQA
- ✓ No-Fly/Selectee Lists
- ✓ CARICOM, US, CANPASS Global APIS
